Index to Volume 23

Journal of the Aeronautical Sciences

Numbers 1–12, January–December, 1956

No. 1, January, 1956, pages 1– 96
No. 2, February, 1956, pages 97–192
No. 3, March, 1956, pages 193–288
No. 4, April, 1955, pages 289–400
No. 5, May, 1956, pages 401–516
No. 6, June, 1956, pages 517–612
No. 7, July, 1956, pages 613–708
No. 8, August, 1956, pages 709–804
No. 9, September, 1956, pages 805–900
No. 10, October, 1956, pages 901–980
No. 11, November, 1956, pages 981–1060
No. 12, December, 1956, pages 1061–1140

The material has been indexed under a subject heading and by author.

ABZUG, MALCOLM J. Applications of Matrix Operators to the Kinematics of Airplane Motion 679

Aerodynamics

Applied Aerodynamics and Flight Mechanics, W. Bailey Oswald 469
Errata—"Applied Aerodynamics and Flight Mechanics," W. Bailey Oswald* 892, 1123
An Approximate Solution to Supersonic Conical Flow, Henry E. Fettis* 1122
Aspects of the Problem of Turbulent Motion, C. C. Lin 453
Conical Techniques for Incompressible Nonviscous Flow, Homer J. Stewart and Allen I. Ormsbee 1029
The Decay of Turbulence Near the Critical Reynolds Number, A. F. Charwat* 799
Double and Triple Correlations Behind a Heated Grid, A. L. Kistler, V. O'Brien, and S. Corrsin* 96
Effect of Wind-Tunnel Contraction on Free-Stream Turbulence, Mahinder S. Uberoi 754
The Effects of Prandtl Number on High-Speed Viscous Flows over a Flat Plate, Y. H. Kuo* 1058
An Experimental Study of the One-Dimensional Refraction of a Rarefaction Wave at a Contact Surface, I. J. Billington 997
An Experimental Study of One-Dimensional Shock-Wave Refraction, C. A. Ford and I. I. Glass* 189
Fluid Dynamic Effects at Speeds from $M = 11$ to 15, Seymour M. Bogdonoff and Andrew G. Hammitt 108
Forced Convection of Heat from Cylinders at Low Reynolds Numbers, D. C. Collis* 697
Heat Transfer in Turbulent Shear Flow, W. D. Rannie 485
The Hydraulic Analogy as a Distorted Dissimilar Model, R. A. A. Bryant* 282
Hydrodynamics—A Review of von Karman's Contributions, Arthur T. Ippen 438
An Investigation of the Noise Produced by a Subsonic Air Jet, J. H. Gerrard 855
The Laminar Free-Convective Heat Transfer from the Surfaces of a Vertical Circular Cylinder, Knox Millsaps and Karl Pohlhausen* 381
Linearized Theory of Water Drop Impingement, Theodore R. Goodman* 399
A Method for Predicting Lift Effectiveness of Spoilers at Subsonic Speeds, Arthur L. Jones, Owen P. Lamb, and Alfred E. Cronk 330
The Normal Shock Properties for Air in Dissociation Equilibrium, Mary F. Romig* 185
Note on "On the Stability Theory of Flow with Finite Disturbances," J. T. Stuart* 894
A Numerical Method for Laminar Heat Transfer on Cylinders in Plane Compressible Flow, Kwang-Tzu Yang and Harold H. Sogin* 277
On Equation of Motion for a Compressible Viscous Gas, E. V. Laitone 846
On the Method of Averaging Stagnation Pressures, Raymond L. Chuan* 378
Erratum—"On the Method of Averaging Stagnation Pressures," Raymond L. Chuan* 797
On the Role of Reynolds Stresses in Stability Theory, J. T. Stuart* 86
On the Stability Theory of Flow with Finite Disturbances, S. I. Pai* 274
On the Supersonic Flow of a Viscous Fluid Past a Flat Plate, Stephen H. Maslen* 801
A Principle of Maximum Power for Real Fluids in Steady Motion, Carlo Riparbelli* 971
Reduction of Drag Due to Lift in Supersonic Flight by Distributing Lift Along a Fuselage, R. M. Licher 1037
Remarks on Chaplygin Functions, Vivian O'Brien* 894
The Rotational Field Behind a Curved Shock Wave Calculated by the Method of Flux Analysis, Shigeo Uchida and Michiru Yasuhara 830
Similar Solutions in Compressible Laminar Free Mixing Problems, Luigi G. Napolitano* 389
The Skewness Factor According to Obukhoff's Transfer Theory, W. H. Reid* 379
Some Comments on Surface Contamination in Hydraulic Analogy Research, R. A. A. Bryant* 1056
Some Recent Aerodynamic Techniques in Design of Fin-Stabilized Free-Flight Missiles for Minimum Dispersion, M. W. Hunter, A. Shef, and D. V. Black 571
Supplementary Note on Turbulent Velocity Fluctuations, Heinrich B. Helmbold* 702
The Transonic Flow Hydraulic Analogy, R. A. A. Bryant* 90
Viscous Flow Along a Flat Plate Moving at High Supersonic Speeds, Y. H. Kuo 125
Viscous Flow Along a Flat Plate Moving at High Supersonic Speeds, Y. H. Kuo* 977

Aerodynamics—Bodies

Aerodynamic Cross-Coupling Between Side Force and Normal Force on Bodies and Wing-Body Combinations, Martin Zlotnick* 192
Application of Second-Order Shock-Expansion Theory to Several Types of Bodies of Revolution, Robert E. Lavender and Raymond A. Deep* 1052
Base Pressure Studies in Rarefied Supersonic Flows, L. L. Kavanau 193

Aerodynamics—Bodies (*Continued*)

An Experimental Investigation of Flow About Simple Blunt Bodies at a Nominal Mach Number of 5.8, Robert Earl Oliver* ... 177
An Experimental Investigation of Flow over Blunt Nosed Cones at a Mach Number of 5.8, William T. O'Bryant and Reginald M. Machell* ... 1054
Experiments on Circular Cones at Yaw in Supersonic Flow, Maurice Holt and John Blackie ... 931
The Flow over a Body in a Choked Wind Tunnel and in a Sonic Free Jet, Bernard W. Marschner ... 368
The Forces on the General Slender Body of Elliptic Cross Section in Supersonic Flow, H. Portnoy* ... 91
Low-Wave-Drag Bodies of Revolution as Determined by Linearized Theory, G. C. Grogan* ... 612
The Magnus Effect at High Reynolds Numbers, Howard R. Kelly and Ray W. Van Aken* ... 1053
Measurements of Turbulent Heat Transfer on Bodies of Revolution at Supersonic Speeds, W. S. Bradfield and D. G. DeCoursin* ... 272
Negative Magnus Force, E. Krahn* ... 377
On Inviscid Flow Near an Airfoil Leading Edge or an Ogive Tip at High Supersonic Mach Numbers, Abraham Kogan* ... 794
On Linearized Transonic Flow Theory for Slender Bodies, John W. Miles* ... 704
On the Sonic Drag of a Slender Body, John W. Miles ... 146
Recent Developments in the Theory of Wing-Body Wave Drag, Harvard Lomax and Max. A. Heaslet ... 1061
Similarity-Rule Estimation Methods for Cones and Parabolic Noses, Richard D. Linnell and Jerry Z. Bailey* ... 796
Some Effects of Viscosity on Wing-Body Interference at $M = 1.9$, T. R. Rhees and W. P. Crenshaw ... 43
Some Integrated Volume Properties in Linearized Flow and Their Connection with Drag Reduction at Supersonic Speeds, Z. O. Bleviss ... 1078
Some Results of Linearized Transonic Flow About Slender Airfoils and Bodies of Revolution, P. F. Maeder and H. U. Thommen* ... 187
Tip-Bluntness Effects on Cone Pressures at $M = 6.85$, Mitchel H. Bertram* ... 898

Aerodynamics—Boundary Layer & Skin Friction

The Asymptotic Behavior of the Boundary Layer to Transverse Curvature, H. G. Lew* ... 276
Asymptotic Suction Characteristics of the Boundary Layer over a Circular Cylinder, H. G. Lew* ... 895
The Asymptotic Turbulent Boundary Layer, R. A. Dutton* ... 1127
Boundary-Layer Effect on Local Mach Number Measurements on a Circular Arc Half Profile, James B. Carroll and Gordon F. Anderson* ... 604
Boundary-Layer Measurements in Hypersonic Flow, F. K. Hill ... 35
Comments on Viscous Heating, H. M. DeGroff* ... 978
The Correction of Hot-Wire Readings in a Boundary Layer for Proximity to the Solid Boundary, E. G. Richardson* ... 970
The Development of Turbulent Boundary Layers, D. A. Spence ... 3
The Downstream Effect of a Thickening of the Laminar Boundary Layer, D. G. Hurley* ... 383
Effect of Diffusion in an Isothermal Boundary Layer, E. R. G. Eckert and P. J. Schneider* ... 384
The Effect of Heating and Cooling on the Stability of the Boundary-Layer Flow of a Liquid over a Curved Surface, R. C. Di Prima and D. W. Dunn ... 913
The Effect of Mass Transfer on the Compressible Turbulent Boundary-Layer Skin Friction and Heat Transfer—An Addendum, William H. Dorrance* ... 283
Effects of Free-Stream Vorticity on the Behavior of a Viscous Boundary Layer, Ting Yi Li* ... 1128
Effects of Pressure Gradient and Heat Transfer on the Stability of the Compressible Laminar Boundary Layer, Norman M. Shapiro* ... 81
Energy Dissipation in Turbulent Boundary Layers, Itiro Tani* ... 606
An Experimental Investigation of the Boundary-Layer Flow on a Rotating Flat Plate, Jerome Persh and A. Wiley Sherwood* ... 703
Experimental Observation of Laminar Boundary-Layer Oscillations in Supersonic Flow, John Laufer* ... 184
Free-Flight Measurements of Skin Friction of Turbulent Boundary Layers with High Rates of Heat Transfer at High Supersonic Speeds, Simon C. Sommer and Barbara J. Short ... 536
Heat Transfer to an Incompressible Turbulent Boundary Layer and Estimation of Heat-Transfer Coefficients at Supersonic Nozzle Throats, Merwin Sibulkin ... 162
Influence of the Leading-Edge Shock Wave on the Laminar Boundary Layer at Hypersonic Speeds, Lester Lees ... 594
Interaction of a Shock Wave with a Thermal Boundary Layer, Wayland C. Griffith ... 16
The Limiting Wall Temperature Ratios Required for Complete Stabilization of Laminar Boundary Layers with Blowing, Shan-fu Shen and Jerome Persh* ... 286
Nitric Oxide Formation in Hypersonic Flow, J. G. Logan, Jr.* ... 1123
A Note on the Effects of Gas Dissociation on Boundary-Layer Heat Transfer, Robert Bromberg* ... 976
A Note on Transient Aerodynamic Heating, Eugene Covert and Frank Durgin* ... 699
On the Boundary-Layer Equations of a Very Slender Body of Revolution, S. I. Pai* ... 795
On the Energy Balance in a Compressible Boundary Layer, K. T. Yen* ... 274
On Heat Transfer in Laminar Boundary Layers at High Prandtl Number, George W. Morgan and W. H. Warner ... 937
On the Model of the Free, Shock-Separated, Turbulent Boundary Layer, Artur Mager* ... 181
On Viscous Heating, H. M. DeGroff* ... 395
Rapid Laminar Boundary-Layer Calculations by Piecewise Application of Similar Solutions, A. M. O. Smith ... 901
A Simple Theory for Interactions Between Shock Waves and Entirely Laminar Boundary Layers, G. E. Gadd ... 225
Some Examples of Laminar Boundary-Layer Flow on Rotating Blades, Nicholas Rott and William E. Smith ... 991
Some Features of Boundary Layers and Transition to Turbulent Flow, Arnold M. Kuethe ... 444
Transition Studies and Skin-Friction Measurements on an Insulated Flat Plate at a Mach Number of 5.8, Robert H. Korkegi ... 97
Transpiration Cooling Experiments in a Turbulent Boundary Layer at $M = 3$, B. M. Leadon and C. J. Scott* ... 798
The Transverse Curvature Effect in Compressible Axially Symmetric Laminar Boundary-Layer Flow, Ronald F. Probstein and David Elliott ... 208

Aerodynamics—Internal Flow

Comments on Supersonic Diffuser Instability, W. C. Randels* ... 390
Comments on "Supersonic Diffuser Instability," Robert L. Trimpi* ... 611
Further Comments on the Decay of a Nonuniform Velocity Distribution, William J. Guman* ... 979

Aerodynamics—Internal Flow *(Continued)*
Heat Flow in a Fluid with Eddying Flow, William H. Durfee* ... 188
Heat Transfer to an Incompressible Turbulent Boundary Layer and Estimation of Heat-Transfer Coefficients at Supersonic Nozzle Throats, Merwin Sibulkin ... 162
An Investigation on Fully Developed Turbulent Flows in a Curved Channel, Salamon Eskinazi and Hsuan Yeh ... 23
Laminar Jet Mixing of Two Compressible Fluids with Heat Release, S. I. Pai ... 1012
On Strong Transverse Waves Without Shocks in a Circular Cylinder, Stephen H. Maslen and Franklin K. Moore ... 583
On Turbulent Flow Near a Wall, E. R. van Driest ... 1007
The Oscillations of a Supersonic Gas Jet Embedded in a Supersonic Stream, D. C. Pack ... 747
Simple Wave Solutions of the Transonic Equation, L. J. F. Broer* ... 287
Vortex Structures in Pipe Flow, W. H. Webb and R. P. Harrington* ... 792

Aerodynamics—Turbines & Compressors
An Analysis of the Performance of an Axial-Flow Compressor at Low Reynolds Number, Robert L. Sohn ... 741
An Approximate Method of Calculating Three-Dimensional Compressible Flow in Axial Turbomachines, Comdr. Carl O. Holmquist and W. Duncan Rannie ... 543
Compressibility Effects on Secondary Flows, H. G. Loos ... 76
Determination of the Stationary Flow Field in Front of a Supersonic Cascade, P. Schwaar* ... 888
An Investigation of the Flutter Characteristics of Compressor and Turbine Blade Systems, Chi-Teh Wang, Frank Lane, and Robert J. Vaccaro ... 335
Stall Propagation in a Cascade of Airfoils, Anthony R. Kriebel* ... 897
System Mode Shapes in the Flutter of Compressor Blade Rows, Frank Lane ... 54
Variational Method in the Theory of Axisymmetric Rotational Flow of a Compressible Fluid, Bohdan Krajewski* ... 891

Aerodynamics—Wings & Airfoils
Aspect Ratio Influence at High Subsonic Speeds, Gordon F. Anderson ... 874
Conical Techniques for Incompressible Nonviscous Flow, Homer J. Stewart and Allen I. Ormsbee ... 1029
Dynamic Derivatives in Yaw and Sideslip of Thin Wings at Supersonic Speeds, Theodore R. Goodman ... 357
Exact and Approximate Solutions for the Supersonic Delta Wing, L. R. Fowell ... 709
Interpolation Formulas for Supersonic-Hypersonic Airfoils, Richard D. Linnell and Jerry Z. Bailey* ... 398
Inviscid Leading-Edge Effect in Hypersonic Flow, H. K. Cheng and A. J. Pallone* ... 700
The Lift of a Blowing Wing in a Parallel Stream, D. A. Spence* ... 92
Normal Forces on Flat Plates in Low-Density Supersonic Flow, D. M. Tellep and L. Talbot ... 1099
Notes on the Calculation of the Subsonic Downwash and Sidewash Angles Near Wings, Raymond F. Anderson* ... 707
On Inviscid Flow Near an Airfoil Leading Edge or an Ogive Tip at High Supersonic Mach Numbers, Abraham Kogan* ... 794
On Transonic Airfoil Theory, Gottfried Guderley ... 961
The Optimum Distribution of Lift in Certain Prismatic Regions at Supersonic Speed, William W. Willmarth* ... 800
A Review of Source Superposition and Conical Flow Methods in Supersonic Wing Theory, H. J. Stewart ... 507
A Shock-Free Airfoil, H. C. Levey* ... 1129
Some Recent Developments in Airfoil Theory, W. R. Sears ... 490
Some Results of Linearized Transonic Flow About Slender Airfoils and Bodies of Revolution, P. F. Maeder and H. U. Thommen* ... 187
Subsonic Influence of Compressibility on the Pressure Distribution of a Profile, F. S. Weinig* ... 279
Erratum—"Subsonic Influence of Compressibility on the Pressure Distribution of a Profile," F. S. Weinig* ... 705

Aeroelasticity
The Aerodynamic Force on an Airfoil in a Moving Gust, John W. Miles ... 1044
Aerodynamic Influence Coefficients for an Oscillating Finite Thin Wing in Supersonic Flow, Ta Li ... 613
An Aeroelastic Parameter for Estimation of the Effects of Flexibility on the Lateral Stability and Control of Aircraft, William P. Rodden ... 660
Comments on "Computation of Vibration Modes and Frequencies," David Feign* ... 603
The Compressible Flow Past an Oscillating Airfoil in a Wind Tunnel, John W. Miles ... 671
The Design and Testing of Supersonic Flutter Models, John F. McCarthy, Jr., and Robert L. Halfman ... 530
The Divergence of Supersonic Wings Including Chordwise Bending, M. A. Biot ... 237
The Dynamic Response of a Large Airplane to Continuous Random Atmospheric Disturbances, Franklin W. Diederich ... 917
The Effect of Shape on the Orthotropic Characteristics of a Rectangular Plate, Wasfi A. Hijab* ... 696
Equations for the Loading, Section Pitching-Moment Coefficient, and Center-of-Pressure Distributions on Triangular Wings Having Supersonic Leading and Trailing Edges for Various Basic Camber Distributions, Julian H. Kainer ... 137
Experimental Pressure Distributions on Oscillating Low Aspect Ratio Wings, William R. Laidlaw and Robert L. Halfman ... 117
A First-Order Formulation of the Unsteady Supersonic Flow Problem for Finite Wings, John W. Miles ... 578
Forced Responses of Two Elastic Beams Interconnected by Spring-Damper Systems, Michael Dublin and Hans R. Friedrich ... 824
The Integrated Use of Analog and Digital Computing Machines for Aircraft Dynamic Load Problems, Bernard Mazelsky and Robert F. O'Connell ... 721
Iteration in Semidefinite Eigenvalue Problems, Samuel Pines* ... 380
A Least Squares Matrix Interpolation of Flexibility Influence Coefficients, Alfred F. Schmitt* ... 980
A Note on the Fatigue of Wings, A. O. Payne* ... 797
On the Aerodynamic Instability of Thin Panels, John W. Miles ... 771
On the Convergence of an Iterative Procedure in Solving Dynamic Response Problems, Hua Lin* ... 391
On the Evaluation of the Schwarz Function, Yudell L. Luke and Henry E. Fettis* ... 975
On the Flutter of Panels at High Mach Numbers, John M. Hedgepeth* ... 609
On a Matrix Characteristic Value Problem, A. P. Hillman* ... 286
Piston Theory—A New Aerodynamic Tool for the Aeroelastician, Holt Ashley and Garabed Zartarian ... 1109
Remarks on the Convergence of an Iterative Procedure in Solving Dynamic Response Problems, Tse-Sun Chow* ... 1119
Some Structural and Aeroelastic Considerations of High-Speed Flight (Nineteenth Wright Brothers Lecture), R. L. Bisplinghoff ... 289
Spectral Theory of Buffeting and Gust Response: Unification and Extension, H. S. Ribner ... 1075

Aeroelasticity *(Continued)*
Stiffness and Deflection Analysis of Complex Structures, M. J. Turner, R. W. Clough, H. C. Martin, and L. J. Topp ... 805
Stress Distribution, Instability, and Free Vibration of Beam Grid-Works on Elastic Foundations, Hugh L. Cox and Paul H. Denke ... 173
Theoretical Aerodynamic Properties of Vanishing Aspect Ratio Harmonically Oscillating Rigid Airfoils in a Compressible Medium, Bernard Mazelsky ... 639
Torsional Vibration of Rotating Twisted Bars, J. L. Bogdanoff and J. T. Horner* ... 393

AMBA RAO, C. L. Note on Photoelastic Study of Swept Wings* ... 889
ANDERSON, GORDON F. Aspect Ratio Influence at High Subsonic Speeds ... 874
ANDERSON, GORDON F., AND JAMES B. CARROLL. Boundary-Layer Effect on Local Mach Number Measurements on a Circular Arc Half Profile* ... 604
ANDERSON, RAYMOND F. Notes on the Calculation of the Subsonic Downwash and Sidewash Angles Near Wings* ... 707
ASHLEY, HOLT, AND GARABED ZARTARIAN. Piston Theory—A New Aerodynamic Tool for the Aeroelastician ... 1109

BAILEY, JERRY Z., AND RICHARD D. LINNELL. Interpolation Formulas for Supersonic-Hypersonic Airfoils* ... 398
BAILEY, JERRY Z., AND RICHARD D. LINNELL. Similarity-Rule Estimation Methods for Cones and Parabolic Noses* ... 796
BERMAN, ALEX. Response Matrix Method of Rotor Blade Analysis ... 155
BERTRAM, MITCHEL H. Tip-Bluntness Effects on Cone Pressures at $M = 6.85$* ... 898
BESSELING, J. F. Analysis of the Plastic Collapse of a Cruciform Column with Initial Twist, Loaded in Compression ... 49
BILLINGTON, I. J. An Experimental Study of the One-Dimensional Refraction of a Rarefaction Wave at a Contact Surface ... 997

Biographical
Introduction. The Institute of the Aeronautical Sciences Extends Congratulations to Dr. Theodore von Kármán on the Occasion of His Seventy-Fifth Birthday May 11, 1956 ... 403
A Salute to Hugh L. Dryden ... 1
Theodore von Kármán, Clark B. Millikan ... 404

BIOT, M. A. Applied Mathematics—An Art and a Science ... 406
BIOT, M. A. The Divergence of Supersonic Wings Including Chordwise Bending ... 237
BISPLINGHOFF, R. L. Some Structural and Aeroelastic Considerations of High-Speed Flight (Nineteenth Wright Brothers Lecture) ... 289
BLACK, D. V., A. SHEF, AND M. W. HUNTER. Some Recent Aerodynamic Techniques in Design of Fin-Stabilized Free-Flight Missiles for Minimum Dispersion ... 571
BLACKIE, JOHN, AND MAURICE HOLT. Experiments on Circular Cones at Yaw in Supersonic Flow ... 931
BLEVISS, Z. O. Some Integrated Volume Properties in Linearized Flow and Their Connection with Drag Reduction at Supersonic Speeds ... 1078
BLOMQUIST, KURT E., AND FRED H. TURNER. A Study of the Applicability of Rabotnov's Creep Parameter for Aluminum Alloy* ... 1121
BODNER, S. R., AND M. J. FORRAY. Bending Moments in an Initially Bent, Spring Restrained Column* ... 387
BOGDANOFF, J. L., AND J. T. HORNER. Torsional Vibration of Rotating Twisted Bars* ... 393
BOGDONOFF, SEYMOUR M., AND ANDREW G. HAMMITT. Fluid Dynamic Effects at Speeds from $M = 11$ to 15 ... 108
BOLEY, BRUNO A. The Determination of Temperature, Stresses, and Deflections in Two-Dimensional Thermoelastic Problems ... 67
BOLEY, BRUNO A. On Thin-Ring Analysis* ... 802
BOLEY, BRUNO A. Thermally Induced Vibrations of Beams* ... 179
BRADFIELD, W. S., AND D. G. DECOURSIN. Measurements of Turbulent Heat Transfer on Bodies of Revolution at Supersonic Speeds* ... 272
BROER, L. J. F. Simple Wave Solutions of the Transonic Equation* ... 287
BROMBERG, ROBERT. A Note on the Effects of Gas Dissociation on Boundary-Layer Heat Transfer* ... 976
BRYANT, R. A. A. The Hydraulic Analogy as a Distorted Dissimilar Model* ... 282
BRYANT, R. A. A. Some Comments on Surface Contamination in Hydraulic Analogy Research* ... 1056
BRYANT, R. A. A. The Transonic Flow Hydraulic Analogy* ... 90
BUDIANSKY, BERNARD, AND J. MAYERS. Influence of Aerodynamic Heating on the Effective Torsional Stiffness of Thin Wings ... 1081

CALLIGEROS, J. M., T. H. H. PIAN, AND J. W. MAR. A Note on Methods for the Determination of Transient Stresses* ... 94
CARROLL, JAMES B., AND GORDON F. ANDERSON. Boundary-Layer Effect on Local Mach Number Measurements on a Circular Arc Half Profile* ... 604
CHARWAT, A. F. The Decay of Turbulence Near the Critical Reynolds Number* ... 799
CHENG, H. K., AND A. J. PALLONE. Inviscid Leading-Edge Effect in Hypersonic Flow* ... 700
CHOW, TSE-SUN. Remarks on the Convergence of an Iterative Procedure in Solving Dynamic Response Problems* ... 1119
CHUAN, RAYMOND L. On the Method of Averaging Stagnation Pressures* ... 378
CHUAN, RAYMOND L. Erratum—"On the Method of Averaging Stagnation Pressures"* ... 797

A Device for Vortex-Core Measurements, Edward J. Hopkins and Norman E. Sorensen* 396
Effect of Wind-Tunnel Contraction on Free-Stream Turbulence, Mahinder S. Uberoi 754
An Experimental Investigation of the Boundary-Layer Flow on a Rotating Flat Plate, Jerome Persh and A. Wiley Sherwood* 703
An Experimental Study of the One-Dimensional Refraction of a Rarefaction Wave at a Contact Surface, I. J. Billington 997
An Experimental Study of One-Dimensional Shock-Wave Refraction, C. A. Ford and I. I. Glass* 189
Fluid Dynamic Effects at Speeds from $M = 11$ to 15, Seymour M. Bogdonoff and Andrew G. Hammitt 108
The Hot-Film Anemometer: A New Device for Fluid Mechanics Research, S. C. Ling and P. G. Hubbard* 890
Normal Forces on Flat Plates in Low-Density Supersonic Flow, D. M. Tellep and L. Talbot 1099
The Tip Correction for Wind-Tunnel Tests of Propellers, Theodore R. Goodman 1094

WU, CHING-SHENG. Bending of Rectangular Plate with Clamped Edges* 601
WYKES, J. H., T. E. SURBER, AND W. P. RODDEN. An Extension of "Effect of a Turbojet Engine on the Dynamic Stability of an Aircraft"* 284

YANG, KWANG-TZU, AND HAROLD H. SOGIN. A Numerical Method for Laminar Heat Transfer on Cylinders in Plane Compressible Flow* 277
YASUHARA, MICHIRU, AND SHIGEO UCHIDA. The Rotational Field Behind a Curved Shock Wave Calculated by the Method of Flux Analysis 830
YEH, HSUAN, AND SALAMON ESKINAZI. An Investigation on Fully Developed Turbulent Flows in a Curved Channel 23
YEN, K. T. On the Energy Balance in a Compressible Boundary Layer* 274

ZARTARIAN, GARABED, AND HOLT ASHLEY. Piston Theory—A New Aerodynamic Tool for the Aeroelastician 1109
ZLOTNICK, MARTIN. Aerodynamic Cross-Coupling Between Side Force and Normal Force on Bodies and Wing-Body Combinations* 192
ZUK, WILLIAM. Creep Buckling of Plates at Elevated Temperatures* 610
